THE MOTION PICTURE SHOWS. While there is much being said of the danger of moving pictures on account of the inflammability of the films, perhaps this is not the most menacing feature of this new and pop ular form of entertainment. These moving pictures will never cease to be interesting or wonderful, and care should be taken to keep the amusement pure and the character of the pictures edifying instead of sensation-

With three motion picture houses I operation with three performances daily Norwich is well supplied with mitractions, and they should be kept so clean that children will receive only good impressions from them. As they have been running, there has been rather an excess of sensational productions-of tragedies and of horfers bank account. -which operate to sicken one rather than to whet the appetite for more The best of apparatus and marine wiews and pasterni scenes with boats of all kinds and animals and birds of every sort moving in them never prove tiresome or offensive.

The Bulletin does not hesitate to predict that the house that steers clear of the intensely tragic and sensational and catera to the taste of the children and the better portion of the community will realize the most handsomely from their entertainments, of sight. The house which runs in every en tertainment an especially good educational set of films for the little folks a pile of unsawed wood and a buckwill make no mistake, but will hold saw and horse is not often approached patronage of the community.

Accidents have been carefully guarded against by our local managers and the pictures have steadily proved. It has been shown that competition prompts to excellence and that hary good sense, each house is atriving to present th cleanest out and most pleasing pic-

#### TO REGULATE THE MARRIED MAN.

In these days the legislatures take up novel problems, as well as fix the size of hotel sheets. The Illinois legislature has before it a bill intened to give a distinct title to married men as a means of preventing their paiming themselves off upon unauspacting women as being single. State Senator Ettleson, who is the cham-pion of this bill, has been approached a number of unmarried women who say that married men are constantly imposing upon them, because it is impossible from a plain introduction of "Mister" to tell whether they are married or not. "The mar aled man ought to be segregated," he "An unmarried woman is 'Miss'; a married woman 'Mrs.' That arrangement is highly satisfactory. It is calculated to promote harmony between the sexes. Now, if the thing works one way, why won't it work the other? Let us make it a felony for a married man to use the bachelor's title. The change will be for the good > of society. It will be a bulwark for the home. It will protect succeptible unmarried ladies. It will abelish at one blow all the married flirts."

If it only would do this, it would be the greatest law ever devised, but since there is no way to prevent a "Mre." from taking in a single man, how could a special title interfere with the rascally pretence of a married man? Special titles will not do it.

word dignity.
Unquestionably Elbert is correct, and every thinking person will agree with him.
Think of the people with dignity and count those having it naturally. Those with assumed dignity are—well, they are understood and discounted by the public.
